Model MC4-HRT "Switch Partner: For "4-to-1" Keyboard & Mouse KVM Switch

November 21, 2005

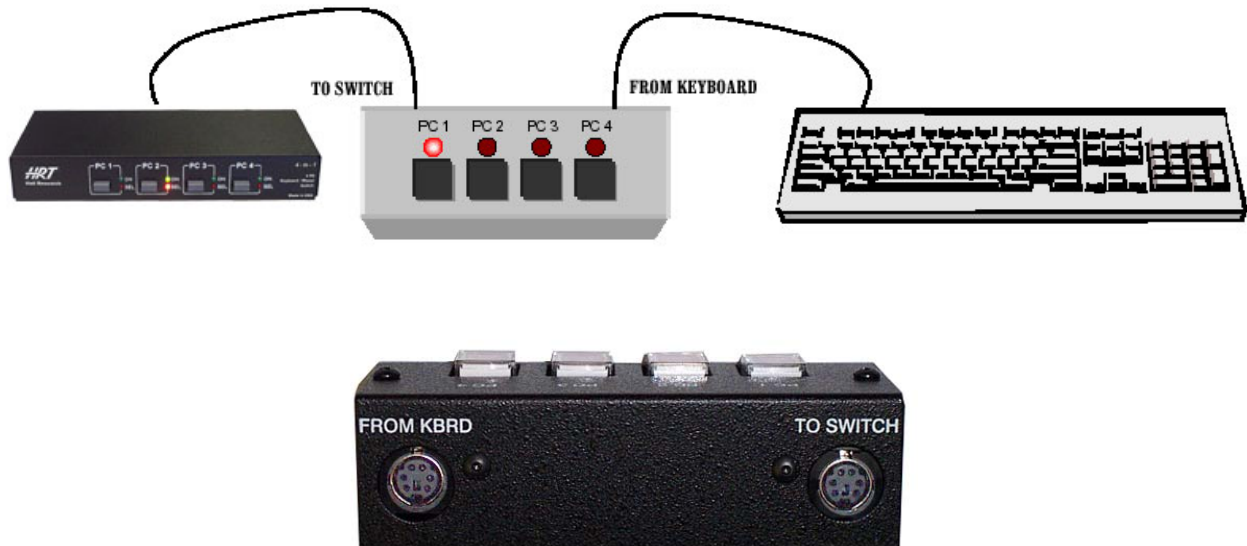

UMA1052 Rev. n/c

Installation

The MC4-HRT “Switch Partner” allows you to control your KVM Switch and switch between 4-PC’s using a convenient small box.

4 convenient push-button switches are used to select the PC. The switches have built-in LED’s to indicate which Pc is currently selected.

The MC4-HRT connect between your keyboard and the Model 4-to-1 KVM Switch (sold separately). It includes a 6’ keyboard cable for connection to the KVM Switch.

Features

- No need to remember “Hot-Key” sequences of the KVM switch to switch among PC’s
- Allows the KVM Switch to be located off of your desk-top
- Eliminates Clutter
- No Power Supply needed
- Extremely easy to install
- LED indicator shows which PC is selected
- Quick and seamless switching between PC’s
- Hot-swapping capabilities of the PC’s and the devices
- Small and compact design
- Designed and manufactured in the USA
